

MIDDLE EAST & AFRICA ATM CASH WITHDRAWALS

Why the ATM is still a vital self-service banking channel for consumers...

| Every Year | Every Hour | Every Minute | Every Second |
|--|---|---|---|
|  |  |  |  |
| Volumes: 12.1 billion Values: \$971 billion | Volumes: 1.4 million Values: \$111 million | Volumes: 23,040 Values: \$1.9 million | Volumes: 380 Values: \$30,770 |

Equivalent of 17% of world's GDP (\$77 trillion) is withdrawn in cash from ATMs each year!

Consumer expectations of financial institutions have never been higher. Cash in circulation is increasing and continues to be the primary source for around 85% of global payments. This is accelerating consumer's demand for fast, secure and convenient access to cash as part of a wider payments mix.

\$971 billion dollars

are withdrawn from Middle East African ATMs each year
