

I AM THE NCR ORDER MANAGEMENT SOLUTION

Track orders and locate products for improved accuracy and customer service

Keep tabs on where and when your orders are moving throughout your enterprise

Clear, up-to-date view of your orders

Inquire about merchandise and initiate sends, transfers, or transaction holds at other locations using an advanced system that is integrated with our inventory management solution. Real-time updates keep your view of enterprise-wide inventory and order processes current.

Synchronized reporting and alerts

Your staff can track item locations, stock levels, shipping information, receive system notifications, and more—with coordination across your enterprise and increased accuracy in stock levels with universal availability of such information.

Flexible options for shopper convenience

With flexible options for delivery and pickup, we make shopping easy for your customers. For example, they can have merchandise sent to themselves, use friend and family member information for shipping gifts, or have items held at a fulfilling store for in-person pickup.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 485 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with approximately 29,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

Support complex transactions

Our robust system keeps tabs on your order history for any order needing attention (new orders, those that have not been filled within a specified time frame, etc.) and routes it to be appropriately processed. This can involve sending notification emails, splitting orders that could not be fulfilled in a single location, and more.

Key features

- Scalable, customizable system design
