

I AM NCR SOFTWARE DISTRIBUTION SERVICES

Remotely deliver software updates to your ATMs

Managing software on ATMs is becoming more complex. NCR Software Distribution Services remotely delivers software updates to your ATMs. We offer a variety of subscriptions to aid in the management of software updates:

- Windows Security Update Management
- Application Update Management
- Campaign Management
- Secure BIOS Update Management

Industry compliance and risk audits require that the latest software security updates are installed regularly across your base to help protect against malicious intent. Microsoft™ regularly releases updates to patch security vulnerabilities that firewalls and anti-virus might not protect. Understanding which updates are needed to mitigate the risk of fraudulent activity and demonstrate compliance to auditors can be a

lengthy and expensive process. NCR Software Distribution Services provide a cost-effective way to identify, distribute and install appropriate updates on your ATMs, and provide documentation to support your compliance audit. We work with you to schedule updates and deploy security patches with minimal interruption to ATM availability.

For more information, visit www.ncr.com/Financial, or email Services.Financial@ncr.com.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 550 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 30,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries. The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

Maximize the potential of your ATM network

In addition to managing the distribution and installation of Microsoft and NCR provided updates, NCR Software Distribution Services will distribute and install software packages supplied by you, such as marketing campaign files or other graphic files to maximize the use of your ATM estate.

Stress free software distribution

NCR provides the infrastructure, staff and processes to manage software updates at an affordable, predictable cost. Utilizing NCR's infrastructure, people and processes to update your ATM environment allows you to receive the value of a secure network without the start-up costs and resources needed to maintain the network.

Keeping you fully informed

NCR provides Software Distribution Summary Reports on the delivery status of each update in an easy to understand format on a regularly scheduled basis. These reports can be used to aid in PCI compliance audits.

Key features

- Aids in PCI compliance
- Easy to implement
- Centralized distribution
