

I AM NCR POWER ENTERPRISE

Retail and Distribution Industries

Controlling the flow of goods through the supply chain can be a daunting task for any business.

Especially companies faced with the challenges of managing fast-moving consumer goods, as the inability to control enterprise-wide item flow efficiently and cost-effectively can literally mean the difference between success and failure.

An advanced suite of supply chain management and logistics software solutions, NCR Power Enterprise provides distributors, retailers and manufacturers with a range of applications to optimize and manage the flow of goods through complex supply chain networks. From suppliers, to distribution centers, to your customers, NCR Power Enterprise gives you the speed, agility and information you need to deliver any number of goods to any location.

On time. Accurately. Day after day.

- Innovative software and services designed to integrate complex supply chain networks
- Extensive supply chain portfolio that manages financials, operations, CRM, SRM and business intelligence
- Ability to automate routine tasks, eliminate paper and improve communication
- Comprehensive traceability and recall solutions
- Serving more than 800 distribution centers worldwide
- Leveraging 30 years of supply chain leadership and expertise

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 485 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with approximately 29,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

Operational Financials

NCR Power Enterprise integrates critical business transactions across multiple systems, including those typically managed manually in spreadsheets. Fully integrated financials include general ledger, accounts receivable, accounts payable, payroll, commissions, budgeting and more. Through this integration, your financials work seamlessly with operations, which allow you to eliminate manual processes, optimize efficiencies and gain access to extensive operational reporting and views. Processes are streamlined. Inventory and stock are optimized. Associates are empowered. Administrative and overhead costs are reduced.

Supply Chain Operations

At the core of Power Enterprise are the operations modules. Distribution, processing, order management and billing, and other critical processes are also managed centrally and more effectively than ever before. Inventory management optimizes order levels and reduces inventory and out-of-stocks, while increasing inventory turns and cash flow. From inventory replenishment to warehouse operations, order processing, and the delivery of products to the customer – we have solutions that help you every step of the way.

Supplier Relationship Management (SRM)

Another key component of Power Enterprise are the modules for automating and optimizing processes between trading partners, central office employees, store personnel, customers and others who are critical to your organization's success. Robust warehouse purchasing, demand forecasting, e-commerce and vendor collaboration tools use real-time data to improve communications and order processing, eliminate paper and optimize inventory management.

Expanding the Power Enterprise Portfolio

Many of the solutions within the Power Enterprise solution portfolio are available individually or as part of the comprehensive suite:

- Master Data Management
- Warehouse Management
- Transportation Management
- Supplier Relationship Management
- Customer Relationship Management
- Demand-driven Replenishment
- Inventory Management
- Merchandising

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.
