

I AM NCR POWER MENU

Retail and Distribution Industries

For food-service operators with countless menu items and ingredients to manage day after day after day, inefficient menu management is a recipe for disaster.

Not only do inventory errors and inadequate cost controls hurt your bottom line, mistakes in satisfying individual dietary restrictions can lead to serious consequences for your customers. And for you.

With NCR Power Menu, delivering accurate and cost-effective menu-management services has never been easier. A Web-based solution, NCR Power Menu provides robust menu-management functionality in a zero footprint application. A browser and internet connection are all you or your customers need to access a full array of menu-management functionality.

Better yet, NCR Power Menu increases your customer satisfaction by helping them better manage their menu costs.

- Makes it easy to comply with ever-changing regulations on nutritional labeling
- Increases profitability of finished goods through recipe cost-analysis
- Improves order accuracy with forecasted demand of ingredients based on finished goods
- Keeps costs low, with no software or licenses needed for end users
- Links to existing systems for item information (including nutritional details), pricing and automated order submission
- Allows both distributors and operators to add menus and recipes

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 485 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with approximately 29,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

Built for performance. And profitability.

Designed to seamlessly link menu-management functions into a distributor's own inventory, pricing and order-submission systems, NCR Power Menu allows food-service providers to choose from a wide range of existing menus, recipes and more. With flexible features for all segments—food-service, retail, restaurants, banquets/catering, institutions and healthcare—this advanced menu-management solution can handle the needs of any operator, no matter how large or small.

NCR Power Menu also allows you to use one of its existing templates as a starting point for creating menus, in addition to adding custom diets that are specifically relevant to an individual facility. Special holiday and theme menus are also possible, as is the ability to create custom recipes or select from more than 9,000 pre-existing options.

Power Menu can flag recipes with allergen ingredients, and create product nutritional profiles to supplement the information for more than 8,000 common products. Its ability to integrate seamlessly with NCR Power Enterprise suite including Power Net for optimal order creation is just one more reason you should order Power Menu for yourself—a la carte or as part of the industry-leading suite of NCR solutions.

Product highlights

- Integration with NCR Power Enterprise suite, including Power Net for ordering
- More than 9,000 pre-populated recipes, plus custom recipe entry
- Cost analysis based on recipe portion, meal, day, week or menu cycle
- Menus for custom diets, holiday and theme meals along with all standard diets and textures for healthcare
- Nutritional analysis by ingredient, product, portion, meal, day or cycle, including allergen warnings
- Inventory tracking for items stocked across facilities or in multiple locations at one facility
- Generation of FDA-compliant nutritional labels, with ability to customize with additional fields
- Control of recipe access and customization at the chain or facility level
- Zero footprint that is easy to implement, support and manage
- Flexible functionality to support all food-service segments, including retail, healthcare and institutional food preparation

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.
