

# I AM NCR POWER WAREHOUSE

Retail and Distribution Industries

## When thousands upon thousands of goods are involved, accurate and efficient picking and shipping aren't simple tasks.

In fact, deciding how to prioritize, pick and ship massive amounts of goods in a way that maximizes supply chain efficiencies – and minimizes costly mistakes – is almost impossible for distributors to do precisely, item after item, day after day after day.

Until now. With NCR Power Warehouse, you'll have seamless inventory movement and management support automatically and worry-free. No matter how many goods you need to deliver to how many locations, Power Warehouse helps distributors pick, pack and ship more efficiently and cost-effectively than ever before. The results? Power Warehouse delivers a stronger bottom line.

- Improves picking, shipping and loading efficiencies
- Creates effective processes for receiving and put-away
- Simplifies order selection and replenishment
- Streamlines truck loading
- Lowers clerical costs with audits of receiving, orders and inventory
- Reduces excess inventory and shrinkage
- Improves customer service by ensuring timely deliveries

# Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 485 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with approximately 29,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

## Pick Up The Pace. And The Profits.

Fast-moving consumer goods present their own set of challenges. The pace at which they sell demands proper prioritization, even back at the warehouse. Too often, however, the need for speed leads to less-efficient movement and management of goods.

NCR Power Warehouse dramatically improves efficiency and lowers costs by streamlining and automating operations. This proven solution revolutionizes warehouse workflow with support of everything from receipt scheduling and returns processing to forklift operations and inventory control.

Unlike many warehouse solutions, Power Warehouse offers a single view of inventory – both physically and financially. Inventory is updated in real time, while optimized picking, shipping and loading helps get the most out of warehouse personnel. Best of all, Power Warehouse provides visibility to automatically solve common problems, from prioritizing customer orders to product rotation and more. Why wait any longer? Empower your operations with Power Warehouse.

## Product Highlights

- Receiving with bar-coded pallet IDs
- Lot tracking from receiving through shipping
- Dynamic put-away location assignment
- Put-away to floating slots (PIR) for fast-moving items
- Prioritized replenishment to maximize productivity and ensure high customer satisfaction
