

I AM NCR LEGACY VOICE SUPPORT

Free yourself up for new opportunities

Let our experts provide the specialized support your legacy voice platforms need, so your own people are free to focus on the next generation upgrades that will best boost profits.

Cost effective support

Trusting us to provide expert PBX support is a smarter way to hold onto your revenue and margins for accounts that aren't ready to migrate.

Keep up with the competition

NCR helps protect your investment by always providing a technology migration path and never allowing your product spending to become stranded. This "evergreen" approach makes sure your spending and growth into new technologies keep you on top of your game—and ahead of competitors.

Maintain what you have

The labor and skills needed to maintain older platforms can eat into profits. By outsourcing support to NCR's highly skilled techs, you get the benefits of all our knowledge—without the drain on your own manpower.

Focus on your future

High value upgrades are where your future is. Taking advantage of NCR Legacy Voice support will allow your employees to focus on moving customers to these next generation solutions—and greater growth.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 550 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 30,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries. The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

Key features

What you can expect

- **Complete coverage**
In North America, we now have a large team of highly skilled Siemens® (Unify®) technicians to provide on-site maintenance support for Unify equipment. Our expertise spans both traditional technologies and state of the art, software centric Pure IP solutions, so whatever type and vintage of technology you have, we can maintain it.
- **Broad experience**
Our NCR technicians are the best of the best. We will aggressively train and certify them so they can rapidly support your specific manufacturer base, whether it's Avaya®, Nortel®, NEC®, Mitel®, or ShoreTel®.
- **A range of abilities**
We have the skills needed to support traditional TDM and hybrid technologies, including comprehensive site assessment, configuration creation and archiving, application programming, hardware and filter replacement, system backup and restoration, and end-to-end cabling support. And we can do even more for you across the servicing spectrum with NCR provided professional and managed services.

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.

All features, functions and operations described herein may not be marketed by NCR in all parts of the world. Consult your NCR representative or NCR office for the latest information.
