

I AM NCR DEPLOYMENT SERVICES

Install/Move/Add/Change/De-Install

Great service for greater success

Trust our global team of service delivery experts to get the job done right—on time, on budget. We only hire the best of the best—experts trained and certified to understand your IT environment, your industry, and your job specific needs. We'll execute your technology deployment on time and, on budget, with the highest level of excellence for greater success.

Seamless deployments around the globe

We've done this before and do it every day, deploying IT solutions to more than 180 countries worldwide. Our industry recognized workforce of 17,000 badged and experienced professionals can support equipment from NCR as well as other vendors. They have the knowledge and experience to execute your project with the greatest competence, driving your deployment success.

Faster speed to market

We can serve your customers quickly and efficiently, giving them faster access to your newly installed equipment and software.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 550 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 30,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries. The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

A seamless, end-to-end solution

We offer a complete deployment solution, including comprehensive site evaluation and preparation, state of the art staging at regional facilities, installations, moves, adds and changes, and hassle-free de-installation and equipment disposal. Trust us to deploy your next project seamlessly.

A greater customer experience

We offer 24x7 installation scheduling, and our industry leading project managers can expertly manage and coordinate the entire process. Whether you're installing new technologies or moving, changing or adding to existing equipment, our ultimate goal is to help you improve your customer experience—without disrupting business as usual.

Key features

- **Deployment done right—the first time**
Our deployment services use a proven process that ensures seamless integration into your existing environment. We'll facilitate each step from assessment through installation, utilizing our best practice methodology, which can include any of the services below.
- **Industry-leading project management**
Our industry-certified project manager will be your point person, accountable from start to finish. It's his/her job to make sure your deployment is smooth and hassle-free, keeping you up to speed every step of the way with online status access.
- **Experienced site assessment and preparation**
NCR site survey and preparation services guarantee that your location will be ready for installation, preventing unnecessary delays. And we can manage every aspect, from proof of concept, pilots, and design validations to site surveys and cabling.
- **A thorough staging process**
Our state-of-the-art global staging centers procure and stage multivendor products and refurbish old equipment. We will assemble, load, configure, and test all your hardware and software, so it arrives on time and ready to install.
- **Installation, moves/adds/changes and disposal**
We pride ourselves on our service excellence. Our professional staff will handle every aspect of your installation—unpacking, verifying, and testing of equipment, then configuring everything to your exact specifications and satisfaction. We'll also de-install and dispose, redeploy, recycle, or warehouse your old equipment—complying with the appropriate country regulations and environmental considerations.

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.

All features, functions and operations described herein may not be marketed by NCR in all parts of the world. Consult your NCR representative or NCR office for the latest information.
