

I AM NCR STOREPRO

A comprehensive open retail solution designed specifically for the independent grocer to transform both store operations and the customer experience.

NCR StorePro brings proven, flexible efficiencies to the independent grocery market through an open-yet-integrated architecture with a clear path to the NCR Retail ONE commerce hub, making commerce complete for the independent grocer—now and in the future.

Robust, flexible solution with an open platform

The NCR StorePro POS (point-of-sale) and store management solution delivers the speed, accuracy and robustness needed to fully support today's changing grocery requirements. But while StorePro is robust enough to support grocers of all sizes and store counts, StorePro was designed to help independent grocers answer the ever increasing competitive demands of the fast moving consumer goods market.

StorePro's open platform is built using industry standards making it is easier to manage. And, because implementation is driven more by configuration than rewriting code, overall costs are reduced.

StorePro enhances the overall checkout experience while also improving store operations and delivers exceptional

experiences for managers, associates and customers with features that include:

- standalone operation support
- 24-hour trading and automatic EOD (End-of- Day)
- full customer display
- item recognition and text search
- automated prompts and alerts
- password, biometrics- and card-based access control
- coupon printing

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 550 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 30,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries. The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

Store Managers will love it too

Along with delivering consistent availability and built-in resilience, StorePro has back office operations covered with a multitude of features including:

- data upload and download electronic journals with real-time transaction processing
- real-time POS management and monitoring
- employee maintenance
- individual item and product hierarchy setup
- powerful cash office
- EOD and automated processes
- advanced promotion application
- a versatile reporting module
- shelf-edge label maintenance

Functionality is easily expanded with integrations to Retail Manager, a retail back office solution that provides full inventory control – from item arrival to sale and from a single-store to a chain of stores. Designed by Trade Link Retail Systems with input from leading retailers, Retail Manager's features work naturally with day-to-day store operations.

Realize unified commerce through NCR Retail ONE

StorePro's path to the NCR Retail ONE Platform will allow for endless possibilities and expanded functionality with the ability to integrate multiple third-party applications and solutions. NCR Retail ONE is an open and innovative commerce hub built on an omnichannel platform that empowers retailers to maximize their business today while preparing for tomorrow.

Proven global POS experience

What's more comforting than partnering with a solution provider that has more than 130 years of solid global retail experience? StorePro is open, flexible, efficient and most importantly proven. There are approximately 35,000 stores operating internationally with the StorePro "DNA" which means the same NCR proven POS code and configurations were used when designing StorePro.

We help you run your business better. We are NCR. We are Commerce Made Complete.

Key Benefits and Features

- **Unified commerce capabilities and access to retail systems, data and functions** through an open yet highly integrated solution architecture along with planned connectivity to NCR Retail ONE
- **Less downtime and high productivity** due to lane independence allowing the POS to operate even in the event of a server or network failure
- **Ability to resume operations quickly** after the unexpected with daily full and interval backups, and automated data synchronization on renewed server connection
- **Complete freedom** of choice with versatile single or multi-store configurations based on countless parameters, including functionality, store layout, individual lane design and future growth objectives
- **Enhanced brand differentiation** with full customization support, from screen and report layouts, through feature integration tool design and all the way to POS transaction creation and modification flows

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.

All features, functions and operations described herein may not be marketed by NCR in all parts of the world. Consult your NCR representative or NCR office for the latest information.
