

# NCR PROFESSIONAL SERVICES DEVELOPMENT SERVICES GROUP

ENHANCE YOUR ONLINE AND MOBILE BANKING CONSUMER  
EXPERIENCE AND BOOST ENGAGEMENT WITH CUSTOM FEATURES

Most banks have a vision of the services they want to provide to their end users—one that is unique and custom to their brand. The NCR Development Services team will help you bring that vision to life by gathering requirements, developing the application, integrating it with other back office solutions and hosting it as a custom Software-as-a-Service solution.

NCR's Development Services group has extensive experience in the financial technology domain. For nearly two decades, NCR's Development Services team of experts have partnered with financial institutions to better understand their internet banking strategy and business needs, while also helping them develop custom, turnkey solutions to enhance their success and end user experiences.

Sharing your end-state vision and allowing the NCR Development Service team to take on the creation and design, gives you the bandwidth to focus on servicing your customers or members. So, whether it's a widget on the desktop banking home page, or a new feature in mobile banking, or backend integration services, NCR's Development Services team can help you realize your vision and achieve your consumer experience goals.

# LET THE NCR DEVELOPMENT SERVICES TEAM CREATE YOUR VISION AND BRING IT TO LIFE IN OUR HOSTED ENVIRONMENT

## BENEFITS

- **Get ahead of the competition and lower costs at the same time.** Let our development and integration experts do the work for you. Our Development Services team has performed integrations with hundreds of different solutions, using everything from modern Service Oriented Architectures, to older systems requiring 3270 screen emulation. So, whether it's integrating with your banking core, an imaging system, an alternative core for mortgages, wealth management accounts, cards, etc., our team has the expertise to digitally enable end-user interaction with your back-office systems. Cut cost and shorten development time by leveraging the experience, skills and technology of our professional services associates in the field.
- **Stand apart from the rest and increase consumer engagement with our user interface design team.** Differentiate your brand by leveraging NCR's design team. Create applications that are unique, intuitive and have a seamless experience for your end users; increase loyalty by providing products and services that provide them value.
- **Focus on your business and let us do the hosting.** When NCR hosts your solution, we handle everything from automated system monitoring, to certificate management, to disaster recovery, and every other facet of operations. This gives you time back to increase digital banking product offerings and focus on creating exceptional customer experiences and driving loyalty.

- **We're here to support you.** NCR has 24x7x365 on-site and on-call staff, ensuring issues are resolved as quickly as possible. In addition to responding to system alerts, our team proactively monitors system utilization and initiates any required resource allocation to ensure systems continue to run smoothly. In other words, our service doesn't end when your solution goes live!
