

BUSINESS BANKING MOBILE

Enhance your Business Banking customers' experience by offering on-the-go flexibility and control with Business Banking Mobile. Now your small business customers can easily and securely manage their accounts where ever they are and can keep their business moving forward.

Offer your small business customers the next digital business banking experience they want, from the office to the road, so they never miss a business transaction.

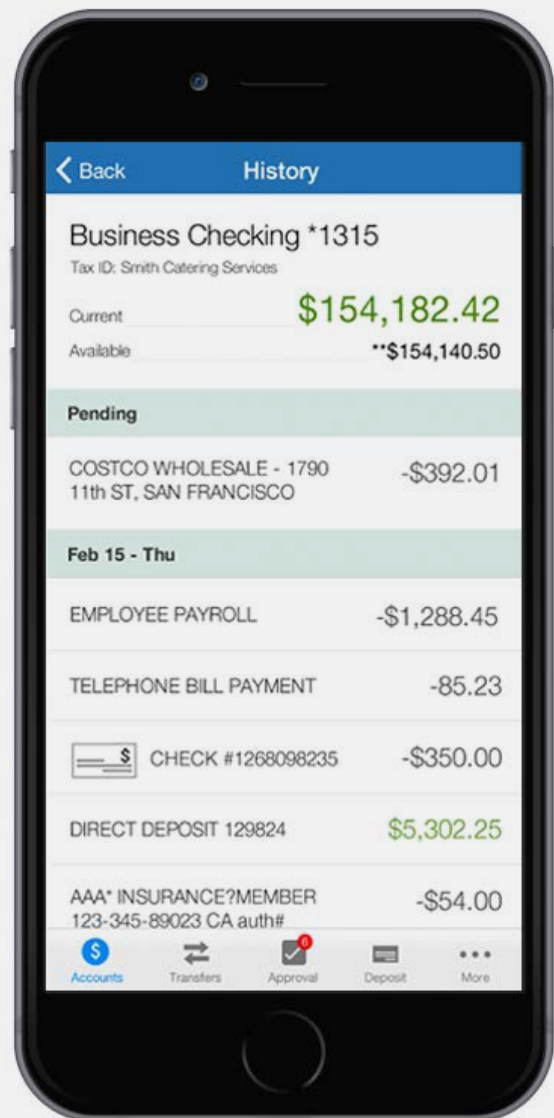

Small to mid-market business

- Easy to use – Design aligns with Digital Insight's online retail banking application
- Seamless banking experience is maintained across all digital channels
- Provides control - on-the-go user management capabilities

Financial Institution

- Enable your small business users to manage their business banking on-the-go
- Enhances the Business Banking offer for small business users, helping to retain current customers and attract new ones
- Exceptional usability offers a superior customer experience, delivering more convenience and freedom to manage their business
- Rich capabilities and segmentation – customizable to each customer's business needs
- Easy to implement – Quickly onboard business customers without loss to their productivity

Now, your small business customers can bank anytime and anywhere they need to, operating their business their way

- Remote Deposit capability – never lose another check with real time deposit
- ATM and branch locator
- Entitlements enforced regardless of channel
- Biometric authentication, user access controls and token, text and voice approval options
- Available on iOS and Android, compatible with tablets and smartphones

BENEFITS AND VALUE

- **Trust and reliability** - Business Banking Mobile creates a differentiated experience for your customers and is the same top rated mobile design as the retail offering. Users love Digital Insight apps for their simplicity and reliability.
- **Cost and control** – Single Admin Platform with a consistent interface lets you use the same set of administrative resources for both consumer and business solutions, increasing back office efficiency. One point of contact for support and one system to upgrade or enhance.
- **Revenue opportunities** – Easy to use interface allows small businesses flexibility to manage their business from their tablet or smartphone. This will help you provide superior customer service for the small business user and accelerate new user adoption. If you have business customers who are also consumer customers, they will easily transition to the new solution so you can quickly begin growing revenue.
- **Scalability** – As businesses grow from a single person to larger entities, they need one solution, a single platform, that will continuously meet their growing operations. By providing the mobility and functionality for small or high-volume businesses, you will be able to compete for and secure a larger market share of more dynamic and high-dollar business entities.

WHY NCR?

NCR Corporation (NYSE: NCR) is a leader in omni-channel solutions, turning everyday interactions with businesses into exceptional experiences.
