

# I AM NCR SITE SURVEY SERVICES

## Plan ahead for faster results

Our Site Survey Services ensure that your location is 100% ready for installation to prevent unexpected and unnecessary delays. Whether you are upgrading a network, improving a data center, or deploying Wi-Fi, we'll gather all the information you need to design your work area or determine what tasks need to be done, so you'll be as prepared as possible with no surprises.

## Be fully informed

We'll document all the steps needed to get your site ready for an upgrade or new technology deployment. Depending on your project, we can determine a precise installation location, access, or best orientation within the site. And we'll point out any obstacles, so you know ahead of time and can deal with them.

## Avoid unexpected delays

Knowing whether or not your site is set up, wired, and powered right reduces installation time and the risk of avoidable downtime, so you can improve your customer experience—without disrupting business as usual.

# Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 550 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 30,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries. The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

## Better results faster

Whether you need us to document your network, data center, wireless, or 4G/LTE readiness, advance planning can increase your network uptime, improve hardware availability, reduce costs, and extend the life of your equipment.

## Seamless deployments

Site surveys are just one phase of the deployment services we offer. From design validation and staging to equipment procurement, installation, and staff training, we can expertly manage and coordinate the entire process, ensuring your next project deploys smoothly and successfully.

## Key features

- **A range of surveys**

We offer virtual surveys, full site surveys, and job specific onsite surveys, including radio frequency, wireless site design validation, mounting, closet, and cabling assessments. Whatever type of technology you plan to deploy, we can inspect the work area and document the information necessary for design, or alert you to the tasks that must be completed before installation.

- **A custom approach**

We'll work closely with you to understand the scope and goals of your project and determine which surveys are necessary based on your unique situation.

- **Thorough documentation**

Depending on your needs, we will physically review and document items, such as relevant infrastructure, available power and connectivity versus solution requirements, cabling, rack and floor in computer room, and wiring closets to support new or moved equipment.

- **Expert troubleshooting**

Our survey will point out any site specific requirements that might affect your installation or other apparent obstacles, so you'll be completely prepared and ready to deploy.

- **A dedicated point person**

We will assign an industry certified site contact person to organize and oversee your survey. One of our experienced project managers can even oversee your entire deployment, ensuring your next project runs smoothly and successfully.

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.
