

# I AM NCR STAGING SERVICES

## Get everything up and running on time

Our thorough staging process is a well oiled machine, making sure your next deployment runs smoothly from the start—so you can finish on time. We organize all your products in one place, put everything together, test to make sure it's working, then ship it out when you need it. So you can relax, knowing you'll be good to go.

### Seamless deployments

Staging is just one phase of the deployment services we offer. From design validation and site preparation to equipment procurement, installation and staff training, we can expertly manage and coordinate the entire process, ensuring your next project deploys smoothly and successfully.

### All the know how you need

We've got the right experts working together under one roof, giving you access to scarce, technology skill sets. So you can be confident all your products will be assembled and configured to your customer's exact specifications.

### One-stop solution for better control

Our specialized staging sites, strategically located around the globe, give us the ability to help wherever you may need us.

### A better way to work

We've done this before, and do it every day for some of the world's biggest companies. We have the knowledge and experience to process your project with the greatest efficiency.

The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

## Key features

### What you can expect

- **An integrated option**  
Expert staging, plus short term warehousing, extensive logistics, and distribution support, means a cost effective way to manage the process from beginning to end.
- **Expert assembly and configuration**  
From installing internal components and loading software to configuring hardware and setting up networks, our dedicated work teams get everything connected.
- **Thorough testing**  
We run automated test scripts or prescribed test activities according to your customer's specifications, ensuring the system is working right and ready to operate.
- **Product solution delivery**  
Trust us to get you where you need to go. We'll tag and deliver your assets, record serial numbers, consolidate the shipment to your designated site, and handle import/export procedures.
- **A dedicated point person**  
By having one of our certified project managers organize and oversee the process, you'll always be kept up to speed, confident that your deployment will be on time, on budget, and up to technical standards.

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.

All features, functions and operations described herein may not be marketed by NCR in all parts of the world. Consult your NCR representative or NCR office for the latest information.
