

NCR Retail Deployment Solutions for Self-Checkout

Are you ready for faster and easier self-checkout installations?

YES

NCR's self-checkout deployment solutions provide the resources, retail expertise and scalability you need

NCR makes retail self-checkout deployments simple by using a proven methodology that delivers high-quality, fast and efficient installations. With over 125 years of retail experience, we have the infrastructure, retail expertise and global reach to deploy when and where you need it. Our team of retail experts will help ensure that your self-checkout solution is seamlessly integrated into your retail environment, so you can remain focused on what's most important—running your business. As more shoppers expect to have self-service options at the checkout, NCR can provide the integration experience, infrastructure, resources and global reach to help you meet this growing consumer demand.

- **Depth of experience and strong infrastructure**

Let NCR's retail deployment expertise work for you. NCR is armed with over 13,000 badged professionals who have deep domain expertise associated with complex retail multisite and multivendor integration projects. NCR can easily support deployments in multiple locations around the world, in more than 90 countries. NCR conducts over 480,000 equipment installations, moves, adds and changes annually.

- **Total customer satisfaction**

NCR drives the success of your deployment by accurately capturing your requirements and making delivering on time and within budget. Execution with excellence is our goal. Whether your equipment is from one vendor or from multiple vendors, NCR has the total store retail expertise to install, relocate or de-install your equipment in your environment quickly and seamlessly.

- **Deployment done right—the first time**

The NCR Retail Deployment Program for self-checkout uses a proven methodology that provides seamless integration into your existing environment, saving you time, money and resources. NCR facilitates each step from assessment through installation by utilizing our best practice methodology, which can include any of the following:

- Project Management
 - o End-to-end project management with a certified single point of contact
- Site Assessment and Preparation
- Equipment Staging
 - o State-of-the-art global staging facilities to assemble, configure and test equipment
- Equipment Installation, Moves/Adds/Changes
 - o Installation execution with excellence
- Equipment De-Installation

- **Beyond deployment for long-term success**

NCR is committed to being your long-term partner for self-checkout success. Deployment doesn't end with flipping the "on" switch. Our installation professionals will train your staff on the newly installed technology to help ensure that you are ready to hit the ground running, making the most out of your investment. If desired, we will also de-install and dispose of your old equipment as part of the deployment process. Count on NCR as your long-term partner who has the solutions to meet your needs both now and as your business evolves.

- **Complementary services**

NCR's Retail Services offers a full portfolio of services to meet your needs, such as:

- o Deployment of Wireless Networks
- o Asset Management
- o Help Desk Management
- o Software Management and Distribution
- o Consultative Services
