

CASH RECYCLING

INCREASE THE PROFITABILITY OF YOUR ATM CHANNEL

There's more to your ATM network than hardware and software.

For your customers, ATMs are a convenient way to manage cash. For financial institutions, they help grow customer loyalty with engaging brand experiences.

Increase the number of products your branch sells while lowering your operating expenses.

Replenish your ATM less frequently, keeping your cash and employees more secure.

Improve the quality of bills in circulation by automatically identifying counterfeit, suspect and unfit notes.

Less frequent replenishment means up to 50% lower cash in transit (CIT) costs.

Transform business customer experience at your branch with 24/7 ATM deposit availability.

Cash recyclers help banks:

- ✓ Increase profitability
- ✓ Reduce costs
- ✓ Improve customer experience
- ✓ Enhance security
- ✓ Differentiate, compete and win

1.1 million recyclers

It's predicted that more than **1.1 million recycling-capable machines** will have been installed globally by 2021. That's around 30% of all ATMs.

\$10,000 per branch

ATMIA suggests cash management procedures including cash recyclers could lead to savings of **\$3,000-\$10,000 per branch**
