

CENTRAL LATIN AMERICA ATM CASH WITHDRAWALS

Why the ATM is still a vital self-service banking channel for consumers...

Every Year	Every Hour	Every Minute	Every Second
			
Volumes: 8.2 Billion Values: \$780 Billion	Volumes: 935,400 Values: \$89 million	Volumes: 15,590 Values: \$1.48 million	Volumes: 260 Values: \$24,700

Equivalent of 17% of world's GDP (\$77 trillion) is withdrawn in cash from ATMs each year!

Consumer expectations of financial institutions have never been higher. Cash in circulation is increasing and continues to be the primary source for around 85% of global payments. This is accelerating consumer's demand for fast, secure and convenient access to cash.

\$780 billion dollars

were withdrawn from Central Latin America ATMs in 2015
