

GLOBAL ATM CASH WITHDRAWALS

Why the ATM is still a vital self-service banking channel for consumers...

Every Year	Every Hour	Every Minute	Every Second
			
Volumes: 99.5 billion Values: \$13.2 trillion	Volumes: 11.3 million Values: \$1.5 billion	Volumes: 189,182 Values: \$25.1 Million	Volumes: 3,153 Values: \$418,292

Equivalent of 17% of world's GDP (\$77 trillion) is withdrawn in cash from ATMs each year!

Consumer expectations of financial institutions have never been higher. Cash in circulation is increasing and continues to be the primary source for around 85% of global payments. This is accelerating consumer's demand for fast, secure and convenient access to cash.

\$13.2 trillion dollars
was withdrawn from ATMs globally in 2015
