

NCR P1535 AND P1235

MID RANGE POS TERMINALS

MID RANGE COMPLETE INFORMATION INTEGRATION

The latest generation of open retail platforms from NCR is faster, more energy efficient, and provides more connectivity than the P1530, so all of your front and back of house operations are integrated.

When you have insight into all of your operations, you can make better business decisions and help your staff deliver an exceptional experience for your customers.

Purpose built for Optimum Performance

NCR P1535/P1235 POS terminals utilize the next generation Intel Celeron Processor N3160 (Quad Core, 2.24 GHz) that offers superior performance with low total cost of ownership. The fanless design runs cool and quiet, reducing the amount of heat generated and power consumed.

Flexible Function

The P-series POS supports multiple operating systems including Microsoft Embedded POSReady 7, and support for Windows 10, for extended service life. We know that every person is different, so the variable tilt stand makes it comfortable for everyone to use or mount it to a pole or wall for a clean countertop look.

Well-connected

Multiple connectivity ports allow complete integration of activities, with expansion capabilities if new devices/peripherals need to be supported. If necessary, you can perform onsite data recovery with an easy to access recovery button.

Sleek, flat front design

The 12-inch or 15-inch zero-bezel touch screen is both modern and stylish. The projected capacitive screen allows ten finger multi-touch gestures, so users can tap, press, slide, swipe, turn, pinch, and stretch to zoom in on images. The flat front design is liquid resistant and easy to clean making it ideal for harsh environments. Optional customer-facing displays are also available.

For more information, visit ncr.com, or email sales.PCR@ncr.com.

Expanded Capability

The P1535/P1235 POS has multiple expansion options including a UV light module option to validate payment cards and cash, as well as armbands, hand stamps, tickets, etc. A 2D imager that reads standard barcodes or QR codes which works with mobile devices is also offered. In addition, a serial expansion card and an MSR reader that encrypts payment card data are available, further protecting you and your customers.

TECHNICAL SPECIFICATIONS

P1535 DIMENSIONS WITH MSR/SIDECAR

- LENGTH 12" (30.4cm)
- WIDTH 17.2" (43.7cm)
- HEIGHT 14.7" (37.5cm)
- WEIGHT (MSR/Stand) 16.3lbs (7.39kg)

Varies by configuration. See Site Prep Guide for details.

P1235 DIMENSIONS WITH MSR/SIDECAR

- LENGTH 10.6" (26.9cm)
- WIDTH 15" (38.1cm)
- HEIGHT 13.5" (34.3cm)

BASE DIMENSIONS

- LENGTH 9" (22.9cm)
- WIDTH 9.25" (23.5cm)

TILT ANGLE

- 3° to 111° from vertical

OPERATING TEMPERATURE

- 32°F–104°F, 0°C–40°C

STORAGE TEMPERATURE

- 32°F–113°F, 0°C–45°C
Must be in original pack material in humidity and temperature controlled environment

HUMIDITY

- 5% to 85%, non-condensing

CPU

- Intel® Celeron™ Processor N3160 (Quad core, 2.24 GHz, 2M Cache)

VOLATILE MEMORY

- 4GB DDR3L Standard, 1 SODIMM slots with up to 8GB DDR3L supported

NETWORKING

- Auto-selecting 10/100/1000 Base-T Ethernet using TCP/IP

PRIMARY DISPLAY

- 15" or 12" XGA LED 1024x768 LCD

TOUCH SCREEN

- Support for projected capacitive

STORAGE

- 40GB (60GB, 120GB SSD or higher capacity available upon request)

ENCLOSURE

- Polycarbonate/ABS impact resistant, high strength blend, environmentally sealed
