

# NCR Mobile Convenience, powered by P97

Enabling frictionless, contactless commerce in-store and at the pump

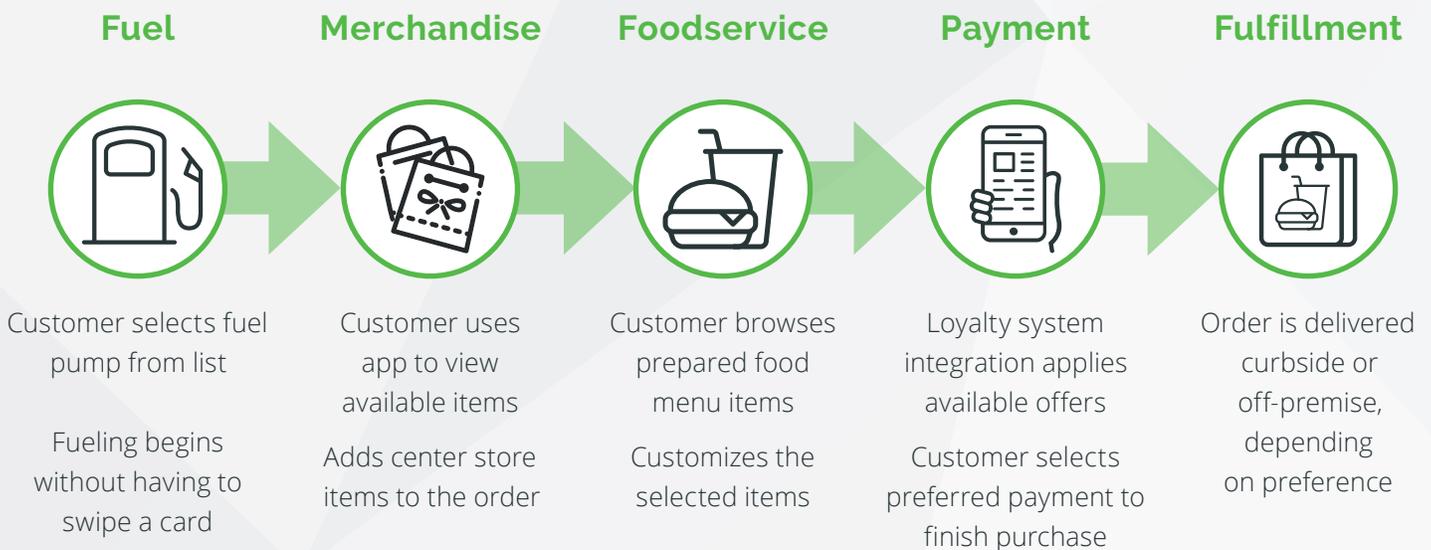

Innovations like mobile wallets, one-click purchasing and now, contactless, have reshaped the shopping experience. Today, frictionless means speed, personalization, and wow experiences with the customer in full control. Everyone's seeking it, but it's impossible to do well without the right systems.

NCR Mobile Convenience is the answer. In partnership with P97 Networks, we offer a mobile app built from the ground up for convenience and fuel retailers that transforms your store and forecourt into a contactless shopping experience. It's turnkey, so getting started is fast and cost-effective with your brand and messaging front and center.

With the NCR Mobile Convenience app, customers can securely purchase made-to-order food and merchandise and pay for fuel from their personal devices. Out-of-the-box integration with NCR RPOS means orders and payments are processed through existing systems for accurate and secure fulfillment and financial reconciliation. Plus, with integration to existing loyalty programs, customers are rewarded when they shop mobile and you stay in control of the experience.

Built on an open API platform that makes it easy to add new capabilities, we help future-proof your investment. When you're ready, NCR Advisory Services can help take your digital strategy to the next level.

## How it works: a complete digital c-store experience

To speak with someone or for more information, visit us at [ncr.com](https://www.ncr.com).

# A turnkey mobile app you can start using today

We offer the only mobile app purpose-built for convenience and fuel retailers so it's easy for you to engage customers on the go, in-store and at the pump.

## Enables a frictionless, contactless experience

Authorize fuel pumps, order foodservice and store merchandise from anywhere and pay for it all with a single app for a consistent customer experience.

## Drives profitable sales

One customer-facing app means you can message and promote higher-margin items to grow sales, even if customers don't enter the store or opt for delivery.

## Builds customer trust

Customers feel more in control when they can shop with their smartphones and limit contact with store devices.

## Open platform design

NCR Mobile Convenience is the hub for adding future capabilities and shopping experiences, leveraging NCR's open API design to future-proof your investment.

## About P97

P97 Networks provides secure, cloud-based mobile commerce, in-vehicle payments, and digital marketing solutions for the convenience retail, fuel, and vehicle manufacturing industries under the brand name PetroZone®. P97's mCommerce solutions enhance the ability to attract, engage, and retain customers by securely connecting millions of individual mobile phones and connected cars with merchants using identity, geolocation-based software that creates a unique mobile consumer experience.
